

# “Prevailing Wage?”

...I've *never* heard of it before.”

The fact that most of us don't know what Common Construction Wage is makes some people very happy.

They're the construction industry contractors who are supposed to pay it—but don't. That's not fair to the workers, taxpayers and contractors who do. And it's definitely not good for our local economy.

If you're in the local construction industry and feel you're not receiving it, we can help. To learn more, click on our website at [www.iiiffc.org](http://www.iiiffc.org)

We're the Indiana, Illinois and Iowa Foundation for Fair Contracting. Established to support, promote and encourage fair contracting for contractors, workers and taxpayers.

**We make things fair for everyone.**

## Prevailing Wage

An hourly wage and benefit package required to be paid to employees working on public works projects in your community.
