

# It's time for Greater Taxpayer Value.

There's an easy way to protect your tax dollars from government waste, and a growing number of communities are already using it to save millions. It's called a Responsible Bidding Ordinance – a measure that applies a verifiable standard for contractors who work on projects funded by taxpayer dollars. It helps to reduce costly mistakes that unsafe, unqualified contractors make, and that taxpayers pay for over and over again. To learn more, visit our website and click on Responsible Bidding Ordinances.

We think it's time for  
greater taxpayer value.

## Do you?

We're the Indiana, Illinois & Iowa Foundation For Fair Contracting.  
We make things fair for taxpayers, contractors and workers.
